TAC01 Waterproof plastic card 5.5 x 8.5 inch
Thunderdome
Turks & Caicos

Reef Smart creates detailed guides of the marine environment, particularly coral reefs and shipwrecks, for recreational divers, snorkelers and surfers. Our products are available as printed guidebooks, water-proof slates, wall posters, dive briefing charts and 3D interactive maps, which can be used on websites and as apps. **Reef Smart** also provides additional services to resorts that are dedicated to offering an environmentally aware experience for their guests; these include marine biology training for dive professionals and resort staff, implementation of coral reef monitoring and restoration programs, and the development of sustainable use practices that reduce the impact of operations on the natural environment.
